“Pro” Cabinet User Guide

Golden Lotto Deluxe

IMPORTANT INFORMATION

If your machine requires a lotteries reset, In the back office on the General back office screen select the RESET LOTTERIES button, a prompt will then appear on the screen asking for a password

Using a USB keyboard enter the password in capital letters **STORM**

After entering the password the lotteries will be reset to zero.

To check the lottery meters exit the back office to the main games menu then re enter the back office, the lottery meters should then all show zero.

Gaining Access to the Back Office Menu (Engineers Menu)

To gain access to the Back Office / Engineers Menu, **SIMPLY OPEN THE TOP DOOR OF THE KIOSK** and the following screen will appear.

Insert the following password to gain access **000071** then **Ok**

General Page

This screen allows the Site Manager or Engineer to view the results of the Last Game Plays and the Last Payments that have been.

General Page - continued

There are three other functions that can be used on the General screen.

1, Alter the volume level by sliding your finger up & down the **Master Machine Volume Slide**

2, Recalibrate the Touch Screen by simply pressing the **Press to Calibrate Screen** Icon or by pressing the **START** button on the cabinet. Once this button is fired you are required to touch the four targets to complete the calibration routine.

3, **Reset the Lotteries** – instructions shown under **IMPORTANT INFORMATION**.

Engineers Page

The screenshot shows the 'Engineers' page within a 'Back Office' application. At the top, there is a navigation bar with tabs: General, Collect, Engineers (selected), Setup, Site Name, Receipt Audit Log, Config, and Detailed Stats. The main content area is divided into several sections:

- Peripherals Attached:** Displays status for NOTEREADER OK, COINMECH OK, and HOPPER1 OK.
- Hardware Events:** Includes a 'BUTTONUP 7' field and status for Note Reader, Coin Mech, and Coin Route, each with 'Enable' and 'Disable' buttons.
- Note Recycler:** Features a 'Send All Notes to Stacker' button and a 'Notes in Recycler' counter showing '0'.
- Network Available:** A checkbox that is currently checked.
- Mac1 and Mac2:** Fields for MAC addresses (e.g., [00000008] and [00000010]) and Realtek PCIe GBE Family Controller, with 'ENABLE DHCP' buttons.
- IP Address:** Fields for IP1 (127.0.0.1) and IP2, with 'SET IP' buttons.
- VENUE ASSET NUMBER:** A field containing '1' and a 'SAVE' button.
- Buttons:** A row of buttons including 'USE TITO', 'REGISTER MACHINE ON TITO NETWORK', 'CLEAR TITO Settings', and 'ZERO CREDIT on Machine'.
- Lamp Controls:** A grid of buttons for Lamp1 through Lamp8.
- Other:** A 'Press To EXIT' button and a 'Press for Next Page' button.

The Engineers Page is to assist the engineers if there is a fault on the machine

Peripherals Attached – This allows the engineer to see if the CC Talk line is working ok and if the Coin Mech, Hopper & Note Acceptor is visible and working.

Zero Credit – Allows the engineer to reset the credits back to Zero

Lamp Controls – Lets the engineer fire each individual lamp on the buttons.

Hardware Events – Once a button is pressed or a coin or note inserted it will appear here.

Coin Route – Allows engineer to divert the £1 either into the hopper or cash box

Hopper – If fitted, the engineer can either pay 1 x £1 coin at a time or dump the hopper content.

Venue Name Page

General Collect Engineers Setup Site Name Receipt Audit Log Config Menu Detailed Stats

Clear Down Receipts

Print Off Receipt Audit

Press To EXIT

Press for Next Page

The Receipt Audit Log allows the collector or engineer to verify the tickets that have been paid out

Clear Down Receipts – Allows you to clear the tickets that have been paid out and verified.

Print Off Receipt Audit - This gives two copies of the cash out receipt and also a breakdown of each cash in / out of each lottery stake.

Detailed Game Stats

The Detailed Stats page gives an in depth view of the stats screen.

Total Button – Gives you a total overview of how the machine is performing. As pictured below, this screen provides a view of the games that have been played, total stake per game, the amount won and the total profit across all stakes.

Between Dates Button

Between Two Dates – This allows the Engineer / Site to see how the machine has performed over a certain amount of time.
